

In Health and Social and Child Care you should...

After each lesson

Unit 1 and 3 - Exam - After each lesson review your lesson notes and make a note of anything that you don't understand so that you can ask about this in the next lesson. Locate and read the relevant material in Google Classroom. Add anything extra or interesting to the notes in your exercise book and complete any outstanding questions.

Unit 2 and 4 - NEA - You will have in depth research tasks to complete in preparation for your NEA write up. Ensure you have a Google Doc with your sources and links, you have copied and pasted relevant sections and your own application to the scenario.

Weekly

Unit 1 and 3 - Produce your revision notes in a way that best suits your learning style and review these regularly.

Unit 2 and 4 - Continue with your research.

Throughout the year

The best students will keep up with the news related to Health, Social and Child Care issues. Use news websites such as the BBC to keep up to date and supplement this with watching relevant documentaries which your teachers will discuss with you.
